Note About Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These include, among other things, statements regarding:

- the ongoing effect of the novel coronavirus pandemic ("COVID-19"), including its macroeconomic effects on our business, operations, and financial results;
- the growth of our business and revenues and our expectations about the factors that influence our success and trends in our business;
- fluctuations in our revenue growth rate and operating margin and various factors contributing to such fluctuations;
- our expectation that the continuing shift from an offline to online world will continue to benefit our business;
- our expectation that the portion of our revenues that we derive from non-advertising revenues will continue to increase and may affect our margins;
- our expectation that our traffic acquisition costs (TAC) and the associated TAC rate will fluctuate, which could affect our overall margins;
- our expectation that our monetization trends will fluctuate, which could affect our revenues and margins;
- fluctuations in our revenue growth, as well as the change in paid clicks and cost-per-click and the change in impressions and cost-per-impression, and various factors contributing to such fluctuations;
- our expectation that we will continue to periodically review, refine, and update our methodologies for monitoring, gathering, and counting the number of paid clicks and impressions;
- our expectation that our results will be affected by our performance in international markets as users in developing economies increasingly come online;
- our expectation that our foreign exchange risk management program will not fully offset our net exposure to fluctuations in foreign currency exchange rates;
- the expected variability of gains and losses related to hedging activities under our foreign exchange risk management program;
- the amount and timing of revenue recognition from customer contracts with commitments for performance obligations, including our estimate of the remaining amount of commitments and when we expect to recognize revenue;
- fluctuations in our capital expenditures;
- our plans to continue to invest in new businesses, products, services and technologies, systems, land and buildings for data centers and offices, and infrastructure, as well as to continue to invest in acquisitions and strategic investments;
- our pace of hiring and our plans to provide competitive compensation programs;
- our expectation that our cost of revenues, research and development (R&D) expenses, sales and marketing expenses, and general and administrative expenses may increase in amount and/or may increase as a percentage of revenues and may be affected by a number of factors;
- estimates of our future compensation expenses;
- our expectation that our other income (expense), net (OI&E), will fluctuate in the future, as it is largely driven by market dynamics;
- fluctuations in our effective tax rate;
- seasonal fluctuations in internet usage and advertiser expenditures, underlying business trends such as traditional retail seasonality, which are likely to cause fluctuations in our quarterly results;
- the sufficiency of our sources of funding;
- our potential exposure in connection with new and pending investigations, proceedings, and other contingencies;

- the sufficiency and timing of our proposed remedies in response to decisions from the European Commission (EC) and other regulators and governmental entities;
- our expectations regarding the timing, design, and ongoing phased implementation of our new global enterprise resource planning (ERP) system;
- the expected timing, amount, and effect of Alphabet Inc.'s share repurchases;
- our long-term sustainability and diversity goals;
- the unpredictability of the ongoing broader economic effects resulting from the war in Ukraine on our future financial results;

as well as other statements regarding our future operations, financial condition and prospects, and business strategies. Forward-looking statements may appear throughout this report and other documents we file with the Securities and Exchange Commission (SEC), including without limitation, the following sections: Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Quarterly Report on Form 10-Q and Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021. Forward-looking statements generally can be identified by words such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "projects," "will be," "will continue," "may," "could," "will likely result," and similar expressions. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause our actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q, and in particular, the risks discussed in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, and those discussed in other documents we file with the SEC. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

As used herein, "Alphabet," "the company," "we," "us," "our," and similar terms include Alphabet Inc. and its subsidiaries, unless the context indicates otherwise.

"Alphabet," "Google," and other trademarks of ours appearing in this report are our property. This report contains additional trade names and trademarks of other companies. We do not intend our use or display of other companies' trade names or trademarks to imply an endorsement or sponsorship of us by such companies, or any relationship with any of these companies.

Alphabet Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Summary of Significant Accounting Policies
Nature of Operations

Google was incorporated in California in September 1998 and re-incorporated in the State of Delaware in August 2003. In 2015, we implemented a holding company reorganization, and as a result, Alphabet Inc. ("Alphabet") became the successor issuer to Google.

We generate revenues by delivering relevant, cost-effective online advertising; cloud-based solutions that provide customers with infrastructure and platform services and collaboration tools; sales of other products and services, such as apps and in-app purchases, digital content products, and hardware; and fees received for subscription-based products such as YouTube Premium and YouTube TV.

Basis of Consolidation

The consolidated financial statements of Alphabet include the accounts of Alphabet and entities consolidated under the variable interest and voting models. All intercompany balances and transactions have been eliminated.

Unaudited Interim Financial Information

These unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (GAAP), and in our opinion, include all adjustments of a normal recurring nature necessary for fair financial statement presentation. Interim results are not necessarily indicative of the results to be expected for the full year ending December 31, 2022. We have made estimates and assumptions that affect the amounts reported and disclosed in the financial statements and the accompanying notes. Actual results could differ materially from these estimates.

These consolidated financial statements and other information presented in this Form 10-Q should be read in conjunction with the consolidated financial statements and the related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 filed with the SEC.

Stock Split Effected in the Form of a Stock Dividend ("Stock Split")

On February 1, 2022, the company announced that the Board of Directors had approved and declared a 20-for-one stock split in the form of a one-time special stock dividend on each share of the company's Class A, Class B, and Class C stock. The Stock Split had a record date of July 1, 2022 and an effective date of July 15, 2022. The par value per share of our Class A, Class B, and Class C stock remains unchanged at \$0.001 per share after the Stock Split. All references made to share or per share amounts in the accompanying consolidated financial statements and applicable disclosures have been retroactively adjusted to reflect the effects of the Stock Split.

Note 2. Revenues
Revenue Recognition

The following table presents revenues disaggregated by type (in millions).

⁽¹⁾ Regions represent Europe, the Middle East, and Africa (EMEA); Asia-Pacific (APAC); and Canada and Latin America ("Other Americas").

Revenue Backlog and Deferred Revenues

As of June 30, 2022, we had \$51.2 billion of remaining performance obligations ("revenue backlog"), primarily related to Google Cloud, and expect to recognize approximately half of this amount as revenues over the next 24 months with the remaining to be recognized thereafter. Our revenue backlog represents commitments in customer contracts for future services that have not yet been recognized as revenues. The amount and timing of revenue recognition for these commitments is largely driven by when our customers utilize services and our ability to deliver in accordance with relevant contract terms, which could affect our estimate of revenue backlog and when we expect to recognize such as revenues. Revenue backlog includes related deferred revenue currently recorded as well as amounts that will be invoiced in future periods and excludes contracts with an original expected term of one year or less and cancellable contracts.

We record deferred revenues when cash payments are received or due in advance of our performance, including amounts which are refundable. Deferred revenues primarily relate to Google Cloud and Google other. Total deferred revenue as of December 31, 2021 was \$3.8 billion, of which \$2.1 billion was recognized as revenues during the six months ended June 30, 2022.

Note 3. Financial Instruments

Debt Securities

We classify our marketable debt securities, which are accounted for as available-for-sale, within Level 2 in the fair value hierarchy because we use quoted market prices to the extent available or alternative pricing sources and models utilizing market observable inputs to determine fair value.

For certain marketable debt securities, we have elected the fair value option for which changes in fair value are recorded in other income (expense), net. The fair value option was elected for these securities to align with the unrealized gains and losses from related derivative contracts. Unrealized net losses related to debt securities still held where we have elected the fair value option were \$35 million and \$602 million as of December 31, 2021 and June 30, 2022, respectively. As of December 31, 2021 and June 30, 2022, the fair value of these debt securities was \$4.7 billion and \$6.4 billion, respectively.

The following tables summarize debt securities, for which we did not elect the fair value option, by significant investment categories (in millions):

	As of December 31, 2021					
	Adjusted Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash and Cash Equivalents	Marketable Securities
Level 2:						
Time deposits ⁽¹⁾	\$ 5,133	\$ 0	\$ 0	\$ 5,133	\$ 5,133	\$ 0
Government bonds	53,288	258	(238)	53,308	5	53,303
Corporate debt securities	35,605	194	(223)	35,576	12	35,564
Mortgage-backed and asset-backed securities	18,829	96	(112)	18,813	0	18,813
Total	\$ 112,855	\$ 548	\$ (573)	\$ 112,830	\$ 5,150	\$ 107,680

	As of June 30, 2022					
	Adjusted Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash and Cash Equivalents	Marketable Securities
Level 2:						
Time deposits ⁽¹⁾	\$ 4,054	\$ 0	\$ 0	\$ 4,054	\$ 4,054	\$ 0
Government bonds	46,782	36	(1,575)	45,243	45	45,198
Corporate debt securities	35,486	6	(1,449)	34,043	0	34,043
Mortgage-backed and asset-backed securities	18,426	1	(903)	17,524	0	17,524
Total	<u>\$ 104,748</u>	<u>\$ 43</u>	<u>\$ (3,927)</u>	<u>\$ 100,864</u>	<u>\$ 4,099</u>	<u>\$ 96,765</u>

⁽¹⁾ The majority of our time deposits are domestic deposits.

We determine realized gains or losses on the sale or extinguishment of debt securities on a specific identification method. We recognized gross realized gains of \$116 million and \$29 million for the three months ended June 30, 2021 and 2022, respectively, and \$251 million and \$69 million for the six months ended June 30, 2021 and 2022, respectively. We recognized gross realized losses of \$15 million and \$368 million for the three months ended June 30, 2021 and 2022, respectively, and \$151 million and \$639 million for the six months ended June 30, 2021 and 2022, respectively. We reflect these gains and losses as a component of other income (expense), net.

The following table summarizes the estimated fair value of investments in marketable debt securities by stated contractual maturity dates (in millions):

	As of June 30, 2022
Due in 1 year or less	\$ 12,374
Due in 1 year through 5 years	73,397
Due in 5 years through 10 years	4,795
Due after 10 years	12,210
Total	<u>\$ 102,776</u>

The following tables present fair values and gross unrealized losses recorded to AOCI, aggregated by investment category and the length of time that individual securities have been in a continuous loss position (in millions):

	As of December 31, 2021					
	Less than 12 Months		12 Months or Greater		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Government bonds	\$ 32,843	\$ (236)	\$ 71	\$ (2)	\$ 32,914	\$ (238)
Corporate debt securities	22,737	(152)	303	(5)	23,040	(157)
Mortgage-backed and asset-backed securities	11,502	(106)	248	(6)	11,750	(112)
Total	<u>\$ 67,082</u>	<u>\$ (494)</u>	<u>\$ 622</u>	<u>\$ (13)</u>	<u>\$ 67,704</u>	<u>\$ (507)</u>

	As of June 30, 2022					
	Less than 12 Months		12 Months or Greater		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Government bonds	\$ 36,141	\$ (1,390)	\$ 3,525	\$ (185)	\$ 39,666	\$ (1,575)
Corporate debt securities	29,241	(1,136)	3,111	(235)	32,352	(1,371)
Mortgage-backed and asset-backed securities	15,453	(796)	1,648	(107)	17,101	(903)
Total	<u>\$ 80,835</u>	<u>\$ (3,322)</u>	<u>\$ 8,284</u>	<u>\$ (527)</u>	<u>\$ 89,119</u>	<u>\$ (3,849)</u>

During the three and six months ended June 30, 2021 and 2022, we did not recognize significant credit losses, and the ending allowance balances for credit losses were immaterial as of December 31, 2021 and June 30, 2022. See Note 6 for further details on other income (expense), net.

Equity Investments

The following discusses our marketable equity securities, non-marketable equity securities, gains and losses on marketable and non-marketable equity securities, as well as our equity securities accounted for under the equity method.

Our marketable equity securities are publicly traded stocks or funds measured at fair value and classified within Level 1 and 2 in the fair value hierarchy because we use quoted prices for identical assets in active markets or inputs that are based upon quoted prices for similar instruments in active markets.

Our non-marketable equity securities are investments in privately held companies without readily determinable market values. The carrying value of our non-marketable equity securities is adjusted to fair value upon observable transactions for identical or similar investments of the same issuer or impairment (referred to as the measurement alternative). Non-marketable equity securities that have been remeasured during the period based on observable transactions are classified within Level 2 or Level 3 in the fair value hierarchy because we estimate the value based on valuation methods which may include a combination of the observable transaction price at the transaction date and other unobservable inputs including volatility, rights, and obligations of the securities we hold. The fair value of non-marketable equity securities that have been remeasured due to impairment are classified within Level 3.

Gains and losses on marketable and non-marketable equity securities

Gains and losses (including impairments) reflected in other income (expense), net, for marketable and non-marketable equity securities are summarized below (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Net gain (loss) on equity securities sold during the period	\$ 138	\$ 26	\$ 506	\$ (230)
Net unrealized gain (loss) on equity securities held as of the end of the period	2,634	(277)	7,103	(1,091)
Total gain (loss) recognized in other income (expense), net	\$ 2,772	\$ (251)	\$ 7,609	\$ (1,321)

In the table above, net gain (loss) on equity securities sold during the period reflects the difference between the sale proceeds and the carrying value of the equity securities at the beginning of the period or the purchase date, if later.

Cumulative net gains (losses) on equity securities sold during the period, which is summarized in the following table (in millions), represents the total net gains (losses) recognized after the initial purchase date of the equity security. While these net gains may have been reflected in periods prior to the period of sale, we believe they are important supplemental information as they reflect the economic net gains on the securities sold during the period. Cumulative net gains are calculated as the difference between the sale price and the initial purchase price for the equity security sold during the period.

	Equity Securities Sold			
	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Total sale price	\$ 2,629	\$ 645	\$ 3,353	\$ 1,335
Total initial cost	409	168	766	428
Cumulative net gains ⁽¹⁾	\$ 2,220	\$ 477	\$ 2,587	\$ 907

⁽¹⁾ Cumulative net gains for the three and six months ended June 30, 2021 excludes cumulative losses of \$684 million resulting from our equity derivatives, which hedged the changes in fair value of certain marketable equity securities sold. The associated derivative liabilities arising from these losses were settled against our holdings of the underlying equity securities.

Carrying value of marketable and non-marketable equity securities

The carrying value is measured as the total initial cost plus the cumulative net gain (loss). The carrying values for marketable and non-marketable equity securities are summarized below (in millions):

	As of December 31, 2021		
	Marketable Securities	Non-Marketable Securities	Total
Total initial cost	\$ 4,211	\$ 15,135	\$ 19,346
Cumulative net gain (loss) ⁽¹⁾	3,587	12,436	16,023
Carrying value ⁽²⁾	\$ 7,798	\$ 27,571	\$ 35,369

⁽¹⁾ Non-marketable equity securities cumulative net gain (loss) is comprised of \$14.1 billion gains and \$1.7 billion losses (including impairments).

⁽²⁾ The long-term portion of marketable equity securities (subject to long-term lock-up restrictions) of \$1.4 billion is included within other non-current assets.

	As of June 30, 2022		
	Marketable Securities	Non-Marketable Securities	Total
Total initial cost	\$ 5,451	\$ 15,262	\$ 20,713
Cumulative net gain (loss) ⁽¹⁾	146	13,595	13,741
Carrying value ⁽²⁾	\$ 5,597	\$ 28,857	\$ 34,454

⁽¹⁾ Non-marketable equity securities cumulative net gain (loss) is comprised of \$16.7 billion gains and \$3.1 billion losses (including impairments).

⁽²⁾ The long-term portion of marketable equity securities (subject to long-term lock-up restrictions) of \$1.3 billion is included within other non-current assets.

Marketable equity securities

The following table summarizes marketable equity securities measured at fair value by significant investment categories (in millions):

	As of December 31, 2021		As of June 30, 2022	
	Cash and Cash Equivalents	Marketable Securities	Cash and Cash Equivalents	Marketable Securities
Level 1:				
Money market funds	\$ 7,499	\$ 0	\$ 6,593	\$ 0
Marketable equity securities ⁽¹⁾⁽²⁾	0	7,447	0	5,242
	7,499	7,447	6,593	5,242
Level 2:				
Mutual funds	0	351	0	355
Total	\$ 7,499	\$ 7,798	\$ 6,593	\$ 5,597

⁽¹⁾ The balance as of December 31, 2021 and June 30, 2022 includes investments that were reclassified from non-marketable equity securities following the commencement of public market trading of the issuers or acquisition by public entities (certain investments are subject to short-term lock-up restrictions).

⁽²⁾ As of December 31, 2021 and June 30, 2022 the long-term portion of marketable equity securities (subject to long-term lock-up restrictions) of \$1.4 billion and \$1.3 billion, respectively, is included within other non-current assets.

Non-marketable equity securities

The following is a summary of unrealized gains and losses (including impairments) recorded in other income (expense), net, which are included as adjustments to the carrying value of non-marketable equity securities held as of the end of the period (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Unrealized gains on non-marketable equity securities	\$ 1,852	\$ 2,179	\$ 5,128	\$ 3,016
Unrealized losses on non-marketable equity securities (including impairments)	(65)	(1,268)	(67)	(1,645)
Total unrealized gain (loss) recognized on non-marketable equity securities	\$ 1,787	\$ 911	\$ 5,061	\$ 1,371

During the three months ended June 30, 2022, included in the \$28.9 billion of non-marketable equity securities held as of the end of the period, \$10.8 billion were measured at fair value resulting in a net unrealized gain of \$911 million.

Equity securities accounted for under the Equity Method

As of December 31, 2021 and June 30, 2022, equity securities accounted for under the equity method had a carrying value of approximately \$1.5 billion and \$1.4 billion, respectively. Our share of gains and losses, including impairments, are included as a component of other income (expense), net, in the Consolidated Statements of Income. See Note 6 for further details on other income (expense), net.

Derivative Financial Instruments

We enter into derivative instruments to manage risks relating to our ongoing business operations. The primary risk managed with derivative instruments is foreign exchange risk. We use foreign currency contracts to reduce the risk that our cash flows, earnings, and investment in foreign subsidiaries will be adversely affected by foreign currency exchange rate fluctuations. We also enter into derivative instruments to partially offset our exposure to other risks and enhance investment returns.

We recognize derivative instruments as either assets or liabilities in the Consolidated Balance Sheets at fair value and classify the derivatives primarily within Level 2 in the fair value hierarchy. We present our collar contracts (an option strategy comprised of a combination of purchased and written options) at net fair values where both the purchased and written options are with the same counterparty. For other derivative contracts, we present at gross fair values. We primarily record changes in the fair value in the Consolidated Statements of Income as either other income (expense), net, or revenues, or in the Consolidated Balance Sheets in AOCI, as discussed below.

We enter into master netting arrangements, which reduce credit risk by permitting net settlement of transactions with the same counterparty. Further, we enter into collateral security arrangements that provide for collateral to be received or pledged when the net fair value of certain financial instruments fluctuates from contractually established thresholds. Cash collateral received related to derivative instruments under our collateral security arrangements are included in other current assets with a corresponding liability. Cash and non-cash collateral pledged related to derivative instruments under our collateral security arrangements are included in other current assets.

Cash Flow Hedges

We designate foreign currency forward and option contracts (including collars) as cash flow hedges to hedge certain forecasted revenue transactions denominated in currencies other than the U.S. dollar. These contracts have maturities of 24 months or less.

Cash flow hedge amounts included in the assessment of hedge effectiveness are deferred in AOCI and subsequently reclassified to revenue when the hedged item is recognized in earnings. We exclude the change in forward points and time value from our assessment of hedge effectiveness. The initial value of the excluded component is amortized on a straight-line basis over the life of the hedging instrument and recognized in revenues. The difference between fair value changes of the excluded component and the amount amortized to revenues is recorded in AOCI. If the hedged transactions become probable of not occurring, the corresponding amounts in AOCI are reclassified to other income (expense), net in the period of de-designation.

As of June 30, 2022, the net accumulated gain on our foreign currency cash flow hedges before tax effect was \$1.1 billion, which is expected to be reclassified from AOCI into earnings within the next 12 months.

Fair Value Hedges

We designate foreign currency forward contracts as fair value hedges to hedge foreign currency risks for our investments denominated in currencies other than the U.S. dollar. Fair value hedge amounts included in the assessment of hedge effectiveness are recognized in other income (expense), net, along with the offsetting gains and losses of the related hedged items. We exclude changes in forward points from the assessment of hedge effectiveness and recognize changes in the excluded component in other income (expense), net.

Net Investment Hedges

We designate foreign currency forward contracts as net investment hedges to hedge the foreign currency risks related to our investment in foreign subsidiaries. Net investment hedge amounts included in the assessment of hedge effectiveness are recognized in AOCI along with the foreign currency translation adjustment. We exclude changes in forward points from the assessment of hedge effectiveness and recognize changes in the excluded component in other income (expense), net.

Other Derivatives

Other derivatives not designated as hedging instruments consist primarily of foreign currency forward contracts that we use to hedge intercompany transactions and other monetary assets or liabilities denominated in currencies other than the functional currency of a subsidiary. Gains and losses on these contracts, as well as the related costs, are recognized in other income (expense), net, along with the foreign currency gains and losses on monetary assets and liabilities.

We also use derivatives not designated as hedging instruments to manage risks relating to interest rates, commodity prices, credit exposures and to enhance investment returns. Additionally, from time to time, we enter into derivatives to hedge the market price risk on certain of our marketable equity securities. Gains (losses) arising from these derivatives are reflected within the "other" component of other income (expense), net and the offsetting recognized gains (losses) on the marketable equity securities are reflected within the gain (loss) on equity securities, net component of other income (expense), net. See Note 6 for further details on other income (expense), net.

The gross notional amounts of outstanding derivative instruments were as follows (in millions):

	As of December 31, 2021	As of June 30, 2022
Derivatives Designated as Hedging Instruments:		
Foreign exchange contracts		
Cash flow hedges	\$ 16,362	\$ 17,871

	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Consolidated Balance Sheets	Net Presented in the Consolidated Balance Sheets	Gross Amounts Not Offset in the Consolidated Balance Sheets, but Have Legal Rights to Offset			
				Financial Instruments	Cash Collateral Pledged	Non-Cash Collateral Pledged	Net Liabilities
Derivatives	\$ 917	\$ (76)	\$ 841	\$ (736) ⁽²⁾	\$ (13)	\$ (1)	\$ 91

⁽²⁾ The balances as of December 31, 2021 and June 30, 2022 were related to derivative assets which are allowed to be net settled against derivative liabilities in accordance with our master netting agreements.

Note 4. Variable Interest Entities (VIE)

Consolidated VIEs

We consolidate VIEs in which we hold a variable interest and are the primary beneficiary. The results of operations and financial position of these VIEs are included in our consolidated financial statements.

For certain consolidated VIEs, their assets are not available to us and their creditors do not have recourse to us. As of December 31, 2021 and June 30, 2022, assets that can only be used to settle obligations of these VIEs were \$6.0 billion and \$4.5 billion, respectively, and the liabilities for which creditors only have recourse to the VIEs were \$2.5 billion for both periods.

As of December 31, 2021 and June 30, 2022, total noncontrolling interests (NCI), including redeemable noncontrolling interests (RNCI), in our consolidated subsidiaries was \$4.3 billion and \$4.1 billion, respectively. NCI and RNCI are included within additional paid-in capital. Net loss attributable to noncontrolling interests was not material for any period presented and is included within the "other" component of other income (expense), net. See Note 6 for further details on other income (expense), net.

Unconsolidated VIEs

We have investments in VIEs in which we are not the primary beneficiary. These VIEs include private companies that are primarily early stage companies and certain renewable energy entities in which activities involve power generation using renewable sources.

We have determined that the governance structures of these entities do not allow us to direct the activities that would significantly affect their economic performance. Therefore, we are not the primary beneficiary, and the results of operations and financial position of these VIEs are not included in our consolidated financial statements. We account for these investments as non-marketable equity securities or equity method investments.

The maximum exposure of these unconsolidated VIEs is generally based on the current carrying value of the investments and any future funding commitments. We have determined that the single source of our exposure to these VIEs is our capital investments in them. The carrying value and maximum exposure of these unconsolidated VIEs were \$2.7 billion and \$2.9 billion, respectively, as of December 31, 2021 and \$2.4 billion and \$2.4 billion, respectively, as of June 30, 2022.

Note 5. Debt

Short-Term Debt

We have a debt financing program of up to \$10.0 billion through the issuance of commercial paper. Net proceeds from this program are used for general corporate purposes. We had no commercial paper outstanding as of December 31, 2021 and June 30, 2022.

Our short-term debt balance also includes the current portion of certain long-term debt.

Long-Term Debt

Total outstanding debt is summarized below (in millions, except percentages):

	Maturity	Coupon Rate	Effective Interest Rate	As of December 31, 2021	As of June 30, 2022
Debt					
2014-2020 Notes Issuances	2024 - 2060	0.45% - 3.38%	0.57% - 3.38%	\$ 13,000	\$ 13,000
Future finance lease payments, net and other ⁽¹⁾				2,086	1,966
Total debt				15,086	14,966
Unamortized discount and debt issuance costs				(156)	(150)
Less: Current portion future finance lease payments, net and other current debt ⁽¹⁾⁽²⁾				(113)	(82)
Total long-term debt				<u>\$ 14,817</u>	<u>\$ 14,734</u>

⁽¹⁾ Future finance lease payments are net of imputed interest.

⁽²⁾ Total current portion of long-term debt is included within other accrued expenses and current liabilities. See Note 6.

The notes in the table above are fixed-rate senior unsecured obligations and generally rank equally with each other. We may redeem the notes at any time in whole or in part at specified redemption prices. The effective interest rates are based on proceeds received with interest payable semi-annually.

The total estimated fair value of the outstanding notes was approximately \$12.4 billion and \$10.4 billion as of December 31, 2021 and June 30, 2022, respectively. The fair value was determined based on observable market prices of identical instruments in less active markets and is categorized accordingly as Level 2 in the fair value hierarchy.

Credit Facility

As of June 30, 2022, we had \$10.0 billion of revolving credit facilities, \$4.0 billion expiring in April 2023 and \$6.0 billion expiring in April 2026. The interest rates for all credit facilities are determined based on a formula using certain market rates, as well as our progress toward the achievement of certain sustainability goals. No amounts were outstanding under the credit facilities as of December 31, 2021 and June 30, 2022.

Note 6. Supplemental Financial Statement Information

Accounts Receivable

The allowance for credit losses on accounts receivable was \$550 million and \$634 million as of December 31, 2021 and June 30, 2022, respectively.

Property and Equipment, Net

Property and equipment, net, consisted of the following (in millions):

	As of December 31, 2021	As of June 30, 2022
Land and buildings	\$ 58,881	\$ 65,015
Information technology assets	55,606	59,643
Construction in progress	23,172	25,341
Leasehold improvements	9,146	9,992
Furniture and fixtures	208	267
Property and equipment, gross	147,013	160,258
Less: accumulated depreciation	(49,414)	(54,035)
Property and equipment, net	\$ 97,599	\$ 106,223

Accrued expenses and other current liabilities

Accrued expenses and other current liabilities consisted of the following (in millions):

	As of December 31, 2021	As of June 30, 2022
European Commission fines ⁽¹⁾	\$ 9,799	\$ 9,191
Accrued customer liabilities	3,505	2,948
Accrued purchases of property and equipment	2,415	2,797
Current operating lease liabilities	2,189	2,297
Other accrued expenses and current liabilities	13,328	15,743
Accrued expenses and other current liabilities	\$ 31,236	\$ 32,976

⁽¹⁾ Includes the effects of foreign exchange and interest. See Note 9 for further details.

Accumulated Other Comprehensive Income (Loss)

Components of AOCI, net of income tax, were as follows (in millions):

	Foreign Currency Translation Adjustments	Unrealized Gains (Losses) on Available-for- Sale Investments	Unrealized Gains (Losses) on Cash Flow Hedges	Total
Balance as of December 31, 2020	\$ (864)	\$ 1,612	\$ (115)	\$ 633
Other comprehensive income (loss) before reclassifications	(57)	(540)	92	(505)
Amounts excluded from the assessment of hedge effectiveness recorded in AOCI	0	0	45	45
Amounts reclassified from AOCI	0	(64)	81	17
Other comprehensive income (loss)	(57)	(604)	218	(443)
Balance as of June 30, 2021	\$ (921)	\$ 1,008	\$ 103	\$ 190

	Foreign Currency Translation Adjustments	Unrealized Gains (Losses) on Available-for- Sale Investments	Unrealized Gains (Losses) on Cash Flow Hedges	Total
Balance as of December 31, 2021	\$ (2,306)	\$ 236	\$ 447	\$ (1,623)
Other comprehensive income (loss) before reclassifications	(1,626)	(3,404)	1,083	(3,947)
Amounts excluded from the assessment of hedge effectiveness recorded in AOCI	0	0	(54)	(54)
Amounts reclassified from AOCI	0	381	(585)	(204)
Other comprehensive income (loss)	(1,626)	(3,023)	444	(4,205)
Balance as of June 30, 2022	\$ (3,932)	\$ (2,787)	\$ 891	\$ (5,828)

The effects on net income of amounts reclassified from AOCI were as follows (in millions):

		Gains (Losses) Reclassified from AOCI to the Consolidated Statements of Income			
		Three Months Ended June 30,		Six Months Ended June 30,	
AOCI Components	Location	2021	2022	2021	2022
Unrealized gains (losses) on available-for-sale investments					
	Other income (expense), net	\$ 96	\$ (299)	\$ 82	\$ (489)
	Benefit (provision) for income taxes	(21)	66	(18)	108
	Net of income tax	75	(233)	64	(381)
Unrealized gains (losses) on cash flow hedges					
Foreign exchange contracts	Revenue	(3)	400	(108)	697
Interest rate contracts	Other income (expense), net	2	1	3	3
	Benefit (provision) for income taxes	5	(65)	24	(115)
	Net of income tax	4	336	(81)	585
Total amount reclassified, net of income tax		\$ 79	\$ 103	\$ (17)	\$ 204

Other Income (Expense), Net

Components of other income (expense), net, were as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Interest income	\$ 389	\$ 486	\$ 734	\$ 900
Interest expense ⁽¹⁾	(76)	(83)	(152)	(166)
Foreign currency exchange gain (loss), net	(51)	(260)	62	(333)
Gain (loss) on debt securities, net	111	(790)	25	(1,157)
Gain (loss) on equity securities, net	2,772	(251)	7,609	(1,321)
Performance fees	(523)	318	(1,188)	551
Income (loss) and impairment from equity method investments, net	92	(118)	97	(207)
Other	(90)	259	283	134
Other income (expense), net	\$ 2,624	\$ (439)	\$ 7,470	\$ (1,599)

(1) Interest expense is net of interest capitalized of \$45 million and \$37 million for the three months ended June 30, 2021 and 2022, respectively, and \$92 million and \$71 million for the six months ended June 30, 2021 and 2022, respectively.

Note 7. Acquisitions

Pending Acquisition of Mandiant

In March 2022, we entered into an agreement to acquire Mandiant, a leader in dynamic cyber defense and response, for \$23.00 per share, in an all-cash transaction valued at approximately \$5.4 billion, net of cash and debt. The acquisition of Mandiant is subject to customary closing conditions, including the receipt of regulatory and Mandiant stockholder approvals, and is expected to close later this year. Upon the close of the acquisition, Mandiant will be part of the Google Cloud segment.

Note 8. Goodwill and Other Intangible Assets

Goodwill

Changes in the carrying amount of goodwill for the six months ended June 30, 2022 were as follows (in millions):

	Google Services	Google Cloud	Other Bets	Total
Balance as of December 31, 2021	\$ 19,826	\$ 2,337	\$ 793	\$ 22,956
Acquisitions	896	103	113	1,112
Foreign currency translation and other adjustments	(104)	(12)	(3)	(119)
Balance as of June 30, 2022	\$ 20,618	\$ 2,428	\$ 903	\$ 23,949

Other Intangible Assets

Information regarding purchased intangible assets was as follows (in millions):

	As of December 31, 2021		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Patents and developed technology	\$ 4,786	\$ 4,112	\$ 674
Customer relationships	506	140	366
Trade names and other	534	295	239
Total definite-lived intangible assets	5,826	4,547	1,279
Indefinite-lived intangible assets	138	—	138
Total intangible assets	\$ 5,964	\$ 4,547	\$ 1,417

	As of June 30, 2022		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Patents and developed technology	\$ 962	\$ 462	\$ 500
Customer relationships	521	193	328
Trade names and other	408	97	311
Total definite-lived intangible assets	1,891	752	1,139
Indefinite-lived intangible assets	238	0	238
Total intangible assets	\$ 2,129	\$ 752	\$ 1,377

For the six months ended June 30, 2022, \$4.2 billion of intangible assets that were fully amortized have been removed from gross intangible assets and accumulated amortization.

Amortization expense relating to purchased intangible assets was \$215 million and \$201 million for the three months ended June 30, 2021 and 2022, respectively, and \$432 million and \$392 million for the six months ended June 30, 2021 and 2022, respectively.

Expected amortization expense related to purchased intangible assets held as of June 30, 2022 was as follows (in millions):

Remainder of 2022	\$ 193
2023	294
2024	275
2025	145
2026	99
Thereafter	133
Total	\$ 1,139

Note 9. Contingencies

Indemnifications

In the normal course of business, including to facilitate transactions in our services and products and corporate activities, we indemnify certain parties, including advertisers, Google Network partners, customers of Google Cloud offerings, lessors, and service providers with respect to certain matters. We have agreed to hold certain parties harmless against losses arising from a breach of representations or covenants, or out of intellectual property infringement or other claims made against certain parties. Several of these agreements limit the time within which an indemnification claim can be made and the amount of the claim. In addition, we have entered into indemnification agreements with our officers and directors, and our bylaws contain similar indemnification obligations to our agents.

It is not possible to make a reasonable estimate of the maximum potential amount under these indemnification agreements due to the unique facts and circumstances involved in each particular agreement. Additionally, we have a limited history of prior indemnification claims and the payments we have made under such agreements have not had a material adverse effect on our results of operations, cash flows, or financial position. However, to the extent that valid indemnification claims arise in the future, future payments by us could be significant and could have a material adverse effect on our results of operations or cash flows in a particular period.

As of June 30, 2022, we did not have any material indemnification claims that were probable or reasonably possible.

Legal Matters

Antitrust Investigations

On November 30, 2010, the EC's Directorate General for Competition opened an investigation into various antitrust-related complaints against us.

On June 27, 2017, the EC announced its decision that certain actions taken by Google regarding its display and ranking of shopping search results and ads infringed European competition law. The EC decision imposed a €2.4 billion (\$2.7 billion as of June 27, 2017) fine. On September 11, 2017, we appealed the EC decision to the General Court, and on September 27, 2017, we implemented product changes to bring shopping ads into

compliance with the EC's decision. We recognized a charge of \$2.7 billion for the fine in the second quarter of 2017. On November 10, 2021, the General Court rejected our appeal, and we subsequently filed an appeal with the European Court of Justice on January 20, 2022.

On July 18, 2018, the EC announced its decision that certain provisions in Google's Android-related distribution agreements infringed European competition law. The EC decision imposed a €4.3 billion (\$5.1 billion as of June 30, 2018) fine and directed the termination of the conduct at issue. On October 9, 2018, we appealed the EC decision, which remains pending. On October 29, 2018, we implemented changes to certain of our Android distribution practices. We recognized a charge of \$5.1 billion for the fine in the second quarter of 2018.

On March 20, 2019, the EC announced its decision that certain contractual provisions in agreements that Google had with AdSense for Search partners infringed European competition law. The EC decision imposed a fine of €1.5 billion (\$1.7 billion as of March 20, 2019) and directed actions related to AdSense for Search partners' agreements, which we implemented prior to the decision. On June 4, 2019, we appealed the EC decision, which remains pending. We recognized a charge of \$1.7 billion for the fine in the first quarter of 2019.

While each EC decision is under appeal, we included the fines in accrued expenses and other current liabilities on our Consolidated Balance Sheets as we provided bank guarantees (in lieu of a cash payment) for the fines.

From time to time we are subject to formal and informal inquiries and investigations on various competition matters by regulatory authorities in the United States (U.S.), Europe, and other jurisdictions globally. For example:

- In August 2019, we began receiving civil investigative demands from the U.S. Department of Justice (DOJ) requesting information and documents relating to our prior antitrust investigations and certain aspects of our business. The DOJ and a number of state Attorneys General filed a lawsuit on October 20, 2020 alleging that Google violated U.S. antitrust laws relating to Search and Search advertising. Further, in June 2022, the Australian Competition and Consumer Commission (ACCC) and the United Kingdom's Competition and Markets Authority (CMA) each opened an investigation into Search distribution practices.
- On December 16, 2020, a number of state Attorneys General filed an antitrust complaint in the U.S. District Court for the Eastern District of Texas, alleging that Google violated U.S. antitrust laws as well as state deceptive trade laws relating to its advertising technology. The DOJ's investigation of similar issues remains ongoing. The EC, the CMA, and the ACCC each opened a formal investigation into Google's advertising technology business practices on June 22, 2021, May 25, 2022, and June 29, 2022, respectively.
- On July 7, 2021, a number of state Attorneys General filed an antitrust complaint in the U.S. District Court for the Northern District of California, alleging that Google's operation of Android and Google Play violated U.S. antitrust laws and state antitrust and consumer protection laws. In May 2022, the EC and the CMA each opened a formal investigation into Google Play's business practices. Korean regulators are investigating Google Play's billing practices, most recently opening a formal review in May 2022 of Google's compliance with the new app store billing regulations.

We believe these complaints are without merit and will defend ourselves vigorously. We continue to cooperate with federal and state regulators in the U.S., the EC, and other regulators around the world.

Patent and Intellectual Property Claims

We have had patent, copyright, trade secret, and trademark infringement lawsuits filed against us claiming that certain of our products, services, and technologies infringe others' intellectual property rights. Adverse results in these lawsuits may include awards of substantial monetary damages, costly royalty or licensing agreements, or orders preventing us from offering certain features, functionalities, products, or services. As a result, we may have to change our business practices and develop non-infringing products or technologies, which could result in a loss of revenues for us and otherwise harm our business. In addition, the U.S. International Trade Commission (ITC) has increasingly become an important forum to litigate intellectual property disputes because an ultimate loss in an ITC action can result in a prohibition on importing infringing products into the U.S. Because the U.S. is an important market, a prohibition on importation could have an adverse effect on us, including preventing us from importing many important products into the U.S. or necessitating workarounds that may limit certain features of our products.

Furthermore, many of our agreements with our customers and partners require us to indemnify them against certain intellectual property infringement claims, which would increase our costs as a result of defending such claims, and may require that we pay significant damages if there were an adverse ruling in any such claims. In addition, our customers and partners may discontinue the use of our products, services, and technologies, as a result of injunctions or otherwise, which could result in loss of revenues and adversely affect our business.

Other

We are also regularly subject to claims, suits, regulatory and government investigations, other proceedings, and consent decrees involving competition, intellectual property, privacy and cybersecurity, tax and related compliance, labor and employment, commercial disputes, content generated by our users, goods and services offered by advertisers or publishers using our platforms, personal injury, consumer protection, and other matters. For example, we currently have a number of privacy investigations and suits ongoing in multiple jurisdictions. Such claims, suits, regulatory and government investigations, other proceedings, and consent decrees could result in substantial fines and penalties, injunctive relief, ongoing auditing and monitoring obligations, changes to our products and services, alterations to our business models and operations, and collateral related civil litigation or other adverse consequences, all of which could harm our business, reputation, financial condition, and operating results.

We have ongoing legal matters relating to Russia. We do not believe these ongoing legal matters will have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows.

Certain outstanding matters include speculative, substantial or indeterminate monetary amounts. We record a liability when we believe that it is probable that a loss has been incurred, and the amount can be reasonably estimated. If we determine that a loss is reasonably possible and the loss or range of loss can be estimated, we disclose the reasonably possible loss. We evaluate developments in our legal matters that could affect the amount of liability that has been previously accrued, and the matters and related reasonably possible losses disclosed, and make adjustments as appropriate. Significant judgment is required to determine both the likelihood of there being and the estimated amount of a loss related to such matters.

With respect to our outstanding matters, based on our current knowledge, we believe that the amount or range of reasonably possible loss will not, either individually or in aggregate, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows. However, the outcome of such matters is inherently unpredictable and subject to significant uncertainties.

We expense legal fees in the period in which they are incurred.

Non-Income Taxes

We are under audit by various domestic and foreign tax authorities with regards to non-income tax matters. The subject matter of non-income tax audits primarily arises from disputes on the tax treatment and tax rate applied to the sale of our products and services in these jurisdictions and the tax treatment of certain employee benefits. We accrue non-income taxes that may result from examinations by, or any negotiated agreements with, these tax authorities when a loss is probable and reasonably estimable. If we determine that a loss is reasonably possible and the loss or range of loss can be estimated, we disclose the reasonably possible loss. Due to the inherent complexity and uncertainty of these matters and judicial process in certain jurisdictions, the final outcome may be materially different from our expectations.

For information regarding income tax contingencies, see Note 13.

Note 10. Stockholders' Equity**Stock Split**

On July 15, 2022, the company executed a 20-for-one stock split with a record date of July 1, 2022, effected in the form of a one-time special stock dividend on each share of the company's Class A, Class B, and Class C stock. All references made to share or per share amounts in the accompanying consolidated financial statements and applicable disclosures have been retroactively adjusted to reflect the effects of the Stock Split. See Note 1 for further details.

Share Repurchases

In April 2021, the Board of Directors of Alphabet authorized the company to repurchase up to \$50.0 billion of its Class C stock. In July 2021, the Board of Directors of Alphabet approved an amendment to the April 2021 authorization, permitting the company to repurchase both Class A and Class C shares in a manner deemed in the best interest of the company and its stockholders, taking into account the economic cost and prevailing market conditions, including the relative trading prices and volumes of the Class A and Class C shares. The repurchases from the April 2021 authorization were completed during the second quarter of 2022.

In April 2022, the Board of Directors of Alphabet authorized the company to repurchase up to an additional \$70.0 billion of its Class A and Class C shares. As of June 30, 2022, \$58.9 billion remains available for Class A and Class C share repurchases from the April 2022 authorization.

In accordance with the authorizations of the Board of Directors of Alphabet, during the three and six months ended June 30, 2022, we repurchased and subsequently retired 132.8 million and 231.1 million aggregate shares for \$15.2 billion and \$28.5 billion, respectively. Of the aggregate amount repurchased and subsequently retired during the three months ended June 30, 2022, 16.3 million shares were Class A stock for \$1.9 billion and 116.5 million shares were Class C stock for \$13.3 billion. Of the aggregate amount repurchased and subsequently retired during the six months ended June 30, 2022, 21.2 million shares were Class A stock for \$2.5 billion and 209.9 million shares were Class C stock for \$26.0 billion.

Repurchases are executed from time to time, subject to general business and market conditions and other investment opportunities, through open market purchases or privately negotiated transactions, including through Rule 10b5-1 plans. The repurchase program does not have an expiration date.

Note 11. Net Income Per Share

The following table sets forth the computation of basic and diluted net income per share of Class A, Class B, and Class C stock (in millions, except per share amounts):

	Three Months Ended June 30,					
	2021			2022		
	Class A	Class B	Class C	Class A	Class B	Class C
Basic net income per share:						
Numerator						
Allocation of undistributed earnings	\$ 8,321	\$ 1,265	\$ 8,939	\$ 7,329	\$ 1,081	\$ 7,592
Denominator						
Number of shares used in per share computation	6,009	914	6,456	6,015	887	6,231
Basic net income per share	\$ 1.38	\$ 1.38	\$ 1.38	\$ 1.22	\$ 1.22	\$ 1.22
Diluted net income per share:						
Numerator						
Allocation of undistributed earnings for basic computation	\$ 8,321	\$ 1,265	\$ 8,939	\$ 7,329	\$ 1,081	\$ 7,592
Reallocation of undistributed earnings as a result of conversion of Class B to Class A shares	1,265	0	0	1,081	0	0
Reallocation of undistributed earnings	(149)	(19)	149	(68)	(9)	68
Allocation of undistributed earnings	\$ 9,437	\$ 1,246	\$ 9,088	\$ 8,342	\$ 1,072	\$ 7,660
Denominator						
Number of shares used in basic computation	6,009	914	6,456	6,015	887	6,231
Weighted-average effect of dilutive securities						
Add:						
Conversion of Class B to Class A shares outstanding	914	0	0	887	0	0
Restricted stock units and other contingently issuable shares	0	0	213	0	0	106
Number of shares used in per share computation	6,923	914	6,669	6,902	887	6,337
Diluted net income per share	\$ 1.36	\$ 1.36	\$ 1.36	\$ 1.21	\$ 1.21	\$ 1.21

	Six Months Ended June 30,					
	2021			2022		
	Class A	Class B	Class C	Class A	Class B	Class C
Basic net income per share:						
Numerator						
Allocation of undistributed earnings	\$ 16,330	\$ 2,485	\$ 17,640	\$ 14,812	\$ 2,190	\$ 15,436
Denominator						
Number of shares used in per share computation	6,012	915	6,495	6,013	889	6,266
Basic net income per share	\$ 2.72	\$ 2.72	\$ 2.72	\$ 2.46	\$ 2.46	\$ 2.46
Diluted net income per share:						
Numerator						
Allocation of undistributed earnings for basic computation	\$ 16,330	\$ 2,485	\$ 17,640	\$ 14,812	\$ 2,190	\$ 15,436
Reallocation of undistributed earnings as a result of conversion of Class B to Class A shares	2,485	0	0	2,190	0	0
Reallocation of undistributed earnings	(269)	(36)	269	(162)	(21)	162
Allocation of undistributed earnings	\$ 18,546	\$ 2,449	\$ 17,909	\$ 16,840	\$ 2,169	\$ 15,598
Denominator						
Number of shares used in basic computation	6,012	915	6,495	6,013	889	6,266
Weighted-average effect of dilutive securities						
Add:						
Conversion of Class B to Class A shares outstanding	915	0	0	889	0	0
Restricted stock units and other contingently issuable shares	0	0	195	0	0	127
Number of shares used in per share computation	6,927	915	6,690	6,902	889	6,393
Diluted net income per share	\$ 2.68	\$ 2.68	\$ 2.68	\$ 2.44	\$ 2.44	\$ 2.44

For the periods presented above, the net income per share amounts are the same for Class A, Class B, and Class C stock because the holders of each class are entitled to equal per share dividends or distributions in liquidation in accordance with the Amended and Restated Certificate of Incorporation of Alphabet Inc.

Note 12. Compensation Plans

Stock-Based Compensation

For the three months ended June 30, 2021 and 2022, total stock-based compensation (SBC) expense was \$4.0 billion and \$4.9 billion, including amounts associated with awards we expect to settle in Alphabet stock of \$3.7 billion and \$4.6 billion, respectively. For the six months ended June 30, 2021 and 2022, total SBC expense was \$7.8 billion and \$9.4 billion, including amounts associated with awards we expect to settle in Alphabet stock of \$7.4 billion and \$9.0 billion, respectively.

Stock-Based Award Activities

The following table summarizes the activities for unvested Alphabet restricted stock units (RSUs) for the six months ended June 30, 2022 (in millions, except per share amounts):

	Unvested Restricted Stock Units	
	Number of Shares	Weighted-Average Grant-Date Fair Value
Unvested as of December 31, 2021	338	\$ 81.31
Granted	163	\$ 135.49
Vested	(103)	\$ 85.45
Forfeited/canceled	(19)	\$ 94.47
Unvested as of June 30, 2022	379	\$ 102.80

As of June 30, 2022, there was \$37.1 billion of unrecognized compensation cost related to unvested RSUs. This amount is expected to be recognized over a weighted-average period of 2.7 years.

Note 13. Income Taxes

The following table presents provision for income taxes (in millions, except for effective tax rate):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Income before provision for income taxes	\$ 21,985	\$ 19,014	\$ 43,268	\$ 37,948
Provision for income taxes	\$ 3,460	\$ 3,012	\$ 6,813	\$ 5,510
Effective tax rate	15.7 %	15.8 %	15.7 %	14.5 %

We are subject to income taxes in the U.S. and foreign jurisdictions. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. Total gross unrecognized tax benefits were \$5.2 billion and \$5.8 billion as of December 31, 2021 and June 30, 2022, respectively. Total unrecognized tax benefits that, if recognized, would affect our effective tax rate were \$3.7 billion and \$4.2 billion as of December 31, 2021 and June 30, 2022, respectively.

For information regarding non-income taxes, see Note 9.

Note 14. Information about Segments and Geographic Areas

We report our segment results as Google Services, Google Cloud, and Other Bets:

- Google Services includes products and services such as ads, Android, Chrome, hardware, Google Maps, Google Play, Search, and YouTube. Google Services generates revenues primarily from advertising; sales of apps and in-app purchases, digital content products, and hardware; and fees received for subscription-based products such as YouTube Premium and YouTube TV.
- Google Cloud includes Google's infrastructure and platform services, collaboration tools, and other services for enterprise customers. Google Cloud generates revenues from fees received for Google Cloud Platform services, Google Workspace collaboration tools, and other enterprise services.
- Other Bets is a combination of multiple operating segments that are not individually material. Revenues from Other Bets are generated primarily from the sale of health technology and internet services.

Revenues, certain costs, such as costs associated with content and traffic acquisition, certain engineering activities, and hardware, as well as certain operating expenses are directly attributable to our segments. Due to the integrated nature of Alphabet, other costs and expenses, such as technical infrastructure and office facilities, are managed centrally at a consolidated level. The associated costs, including depreciation and impairment, are allocated to operating segments as a service cost generally based on usage or headcount.

Unallocated corporate costs primarily include corporate initiatives, corporate shared costs, such as finance and legal, including certain fines and settlements, as well as costs associated with certain shared R&D activities. Additionally, hedging gains (losses) related to revenue are included in corporate costs.

Our operating segments are not evaluated using asset information.

The following table presents information about our segments (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Revenues:				
Google Services	\$ 57,067	\$ 62,841	\$ 108,245	\$ 124,313
Google Cloud	4,628	6,276	8,675	12,097
Other Bets	192	193	390	633
Hedging gains (losses)	(7)	375	(116)	653
Total revenues	\$ 61,880	\$ 69,685	\$ 117,194	\$ 137,696

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Operating income (loss):				
Google Services	\$ 22,343	\$ 22,770	\$ 41,889	\$ 45,690
Google Cloud	(591)	(858)	(1,565)	(1,789)
Other Bets	(1,398)	(1,686)	(2,543)	(2,841)
Corporate costs, unallocated	(993)	(773)	(1,983)	(1,513)
Total income from operations	<u>\$ 19,361</u>	<u>\$ 19,453</u>	<u>\$ 35,798</u>	<u>\$ 39,547</u>

For revenues by geography, see Note 2.

The following table presents long-lived assets by geographic area, which includes property and equipment, net and operating lease assets (in millions):

	As of December 31, 2021	As of June 30, 2022
Long-lived assets:		
United States	\$ 80,207	\$ 88,044
International	30,351	31,577
Total long-lived assets	<u>\$ 110,558</u>	<u>\$ 119,621</u>

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Please read the following discussion and analysis of our financial condition and results of operations together with "Note About Forward-Looking Statements" and our consolidated financial statements and related notes included under Item 1 of this Quarterly Report on Form 10-Q as well as our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, including Part I, Item 1A "Risk Factors."

Understanding Alphabet's Financial Results

Alphabet is a collection of businesses — the largest of which is Google. We report Google in two segments, Google Services and Google Cloud; we also report all non-Google businesses collectively as Other Bets. Other Bets include earlier stage technologies that are further afield from our core Google business. For further details on our segments, see Note 14 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Seasonality and other

Our advertising revenues are affected by seasonal fluctuations in internet usage, advertising expenditures, and underlying business trends, such as traditional retail seasonality. Additionally, our non-advertising revenues, including those generated from Google Cloud, Google Play, hardware, and YouTube, may be affected by fluctuations driven by changes in pricing, digital content releases, fee structures, new product and service launches, and other market dynamics, as well as seasonality.

Revenues and Monetization Metrics**Google Services**

Google Services revenues consist of revenues generated from advertising ("Google advertising") as well as revenues from other sources ("Google other revenues").

Google Advertising

Google advertising revenues are comprised of the following:

- Google Search & other, which includes revenues generated on Google search properties (including revenues from traffic generated by search distribution partners who use Google.com as their default search in browsers, toolbars, etc.), and other Google owned and operated properties like Gmail, Google Maps, and Google Play;
- YouTube ads, which includes revenues generated on YouTube properties; and
- Google Network, which includes revenues generated on Google Network properties participating in AdMob, AdSense, and Google Ad Manager.

We use certain metrics to track how well traffic across various properties is monetized as it relates to our advertising revenues: paid clicks and cost-per-click pertain to traffic on Google Search & other properties, while impressions and cost-per-impressions pertain to traffic on our Network partners' properties.

Paid clicks represent engagement by users and include clicks on advertisements by end-users on Google search properties and other Google owned and operated properties including Gmail, Google Maps, and Google Play. Cost-per-click is defined as click-driven revenues divided by our total number of paid clicks and represents the average amount we charge advertisers for each engagement by users.

Impressions include impressions displayed to users on Google Network properties participating primarily in AdMob, AdSense, and Google Ad Manager. Cost-per-impression is defined as impression-based and click-based revenues divided by our total number of impressions, and represents the average amount we charge advertisers for each impression displayed to users.

As our business evolves, we periodically review, refine, and update our methodologies for monitoring, gathering, and counting the number of paid clicks and the number of impressions, and for identifying the revenues generated by the corresponding click and impression activity.

Our advertising revenue growth, as well as the change in paid clicks and cost-per-click on Google Search & other properties and the change in impressions and cost-per-impression on Google Network properties and the correlation between these items, have been affected and may continue to be affected by various factors, including:

- advertiser competition for keywords;

- changes in advertising quality, formats, delivery or policy;
- changes in device mix;
- changes in foreign currency exchange rates;
- fees advertisers are willing to pay based on how they manage their advertising costs;
- general economic conditions and various external dynamics, including the effect of COVID-19, geopolitical events, regulations and other measures;
- seasonality; and
- traffic growth in emerging markets compared to more mature markets and across various advertising verticals and channels.

Google Other

Google other revenues are comprised of the following:

- Google Play, which includes sales of apps and in-app purchases and digital content sold in the Google Play store;
- Devices and Services, which includes sales of hardware, including Fitbit wearable devices, Google Nest home products, and Pixel phones;
- YouTube non-advertising, which includes YouTube Premium and YouTube TV subscriptions; and
- other products and services.

Google Cloud

Google Cloud revenues are comprised of the following:

- Google Cloud Platform, which includes fees for infrastructure, platform, and other services;
- Google Workspace, which includes fees for cloud-based collaboration tools for enterprises, such as Gmail, Docs, Drive, Calendar and Meet; and
- other enterprise services.

Other Bets

Revenues from Other Bets are generated primarily from the sale of health technology and internet services.

For further details on how we recognize revenue, see Note 1 of the Notes to Consolidated Financial Statements included in Part II, Item 8 in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

Costs and Expenses

Our cost structure has two components: cost of revenues and operating expenses. Our operating expenses include costs related to R&D, sales and marketing, and general and administrative functions. Certain of these expenses, including those associated with the operation of our technical infrastructure as well as components of our operating expenses, are generally less variable in nature and may not correlate to the changes in revenue.

Cost of Revenues

Cost of revenues is comprised of TAC and other costs of revenues.

- TAC includes:
 - Amounts paid to our distribution partners who make available our search access points and services. Our distribution partners include browser providers, mobile carriers, original equipment manufacturers, and software developers.
 - Amounts paid to Google Network partners primarily for ads displayed on their properties.
- Other cost of revenues includes:
 - Content acquisition costs, which are payments to content providers from whom we license video and other content for distribution on YouTube and Google Play (we pay fees to these content providers based on revenues generated or a flat fee).

- Expenses associated with our data centers (including bandwidth, compensation expenses, depreciation, energy, and other equipment costs) as well as other operations costs (such as content review as well as customer and product support costs).
- Inventory and other costs related to the hardware we sell.

The cost of revenues as a percentage of revenues generated from ads placed on Google Network properties are significantly higher than the cost of revenues as a percentage of revenues generated from ads placed on Google Search & other properties, because most of the advertiser revenues from ads served on Google Network properties are paid as TAC to our Google Network partners.

Operating Expenses

Operating expenses are generally incurred during our normal course of business, which we categorize as either R&D, sales and marketing, or general and administrative.

The main components of our R&D expenses are:

- compensation expenses for engineering and technical employees responsible for R&D related to our existing and new products and services;
- depreciation; and
- professional services fees primarily related to consulting and outsourcing services.

The main components of our sales and marketing expenses are:

- compensation expenses for employees engaged in sales and marketing, sales support, and certain customer service functions; and
- spending relating to our advertising and promotional activities in support of our products and services.

The main components of our general and administrative expenses are:

- compensation expenses for employees in finance, human resources, information technology, legal, and other administrative support functions;
- expenses related to legal matters, including fines and settlements; and
- professional services fees, including audit, consulting, outside legal, and outsourcing services.

Other Income (Expense), Net

Other income (expense), net primarily consists of interest income (expense), the effect of foreign currency exchange gains (losses), net gains (losses) and impairment on our marketable and non-marketable securities, performance fees, and income (loss) and impairment from our equity method investments.

For additional details, including how we account for our investments and factors that can drive fluctuations in the value of our investments, see Note 1 of the Notes to Consolidated Financial Statements included in Part II, Item 8 and Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 as well as Note 3 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Provision for Income Taxes

Provision for income taxes represents the estimated amount of federal, state, and foreign income taxes incurred in the U.S. and the many jurisdictions in which we operate. The provision includes the effect of reserve provisions and changes to reserves that are considered appropriate as well as the related net interest and penalties.

For additional details, see Note 1 of the Notes to Consolidated Financial Statements included in Part II, Item 8 in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 as well as Note 13 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Executive Overview

The following table summarizes consolidated financial results (in millions, except per share information, percentages, and number of employees):

	Three Months Ended June 30,		\$ Change	% Change	
	2021	2022			
Consolidated revenues ⁽¹⁾	\$ 61,880	\$ 69,685	\$ 7,805	13	%
Change in consolidated constant currency revenues ⁽¹⁾				16	%
Cost of revenues	\$ 26,227	\$ 30,104	\$ 3,877	15	%
Operating expenses	\$ 16,292	\$ 20,128	\$ 3,836	24	%
Operating income	\$ 19,361	\$ 19,453	\$ 92	0	%
Operating margin	31 %	28 %		(3)	%
Other income (expense), net	\$ 2,624	\$ (439)	\$ (3,063)	(117)	%
Net Income	\$ 18,525	\$ 16,002	\$ (2,523)	(14)	%
Diluted EPS	\$ 1.36	\$ 1.21	\$ (0.15)	(11)	%
Number of Employees	144,056	174,014	29,958	21	%

⁽¹⁾ Foreign currency movements affected year-over-year revenue growth rates by 3.7%. This reflects, when rounding to the one decimal place, the percentage change in consolidated revenues and consolidated constant currency revenues year over year of 12.6% and 16.3%, respectively.

- Revenues were \$69.7 billion, an increase of 13% year over year, primarily driven by an increase in Google Services segment revenues of \$5.8 billion or 10% and an increase in Google Cloud segment revenues of \$1.6 billion or 36%.
- Cost of revenues was \$30.1 billion, an increase of 15% year over year, driven by increases in other costs of revenues and TAC.
- Operating expenses were \$20.1 billion, an increase of 24% year over year, primarily driven by increases in compensation due to headcount growth, professional services fees and advertising and promotional expenses. The increase was partially offset by a decrease in charges related to legal matters.

Other information

- On July 15, 2022, the company executed a 20-for-one stock split with a record date of July 1, 2022, effected in the form of a one-time special stock dividend on each share of the company's Class A, Class B, and Class C stock. All references made to share or per share amounts throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations have been retroactively adjusted to reflect the effects of the Stock Split. See Note 1 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q for additional information.
- Beginning in the first quarter of 2022, we suspended the vast majority of our commercial activities in Russia and effectively ceased business activities of our Russian entity. The ongoing effect of these direct actions on our financial results was not material. The broader economic effects resulting from the war in Ukraine on our future financial results may be unpredictable.
- Repurchases of Class A and Class C shares were \$15.2 billion for the three months ended June 30, 2022. In April 2022, the Board of Directors of Alphabet authorized the company to repurchase up to an additional \$70.0 billion of its Class A and Class C shares. See Note 10 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q for additional information.
- Operating cash flow was \$19.4 billion for the three months ended June 30, 2022.
- Capital expenditures of \$6.8 billion for the three months ended June 30, 2022 primarily relate to investments in technical infrastructure.

Financial Results

Revenues

The following table presents revenues by type (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Google Search & other	\$ 35,845	\$ 40,689	\$ 67,724	\$ 80,307
YouTube ads	7,002	7,340	13,007	14,209
Google Network	7,597	8,259	14,397	16,433
Google advertising	50,444	56,288	95,128	110,949
Google other	6,623	6,553	13,117	13,364
Google Services total	57,067	62,841	108,245	124,313
Google Cloud	4,628	6,276	8,675	12,097
Other Bets	192	193	390	633
Hedging gains (losses)	(7)	375	(116)	653
Total revenues	\$ 61,880	\$ 69,685	\$ 117,194	\$ 137,696

Google Services

Google advertising revenues

Google Search & other

Google Search & other revenues increased \$4.8 billion and \$12.6 billion from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, respectively. The overall growth was driven by interrelated factors including increases in search queries resulting from growth in user adoption and usage, primarily on mobile devices, growth in advertiser spending, and improvements we have made in ad formats and delivery.

YouTube ads

YouTube ads revenues increased \$338 million and \$1.2 billion from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, respectively. The growth was driven by our brand and direct response advertising products. Growth for both products was primarily driven by increased spending by our advertisers as well as improvements to ad formats and delivery.

Google Network

Google Network revenues increased \$662 million from the three months ended June 30, 2021 to the three months ended June 30, 2022. The growth was primarily driven by strength in AdSense.

Google Network revenues increased \$2.0 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022. The growth was primarily driven by strength in AdSense and AdMob.

Monetization Metrics

Paid clicks and cost-per-click

The following table presents year-over-year changes in paid clicks and cost-per-click (expressed as a percentage):

	Three Months Ended June 30,	Six Months Ended June 30,
	2022	2022
Paid clicks change	12%	14%
Cost-per-click change	—%	4%

Paid clicks increased from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, driven by a number of interrelated factors, including an increase in search queries resulting from growth in user adoption and usage, primarily on mobile devices; growth in advertiser spending; and improvements we have made in ad formats and delivery.

Cost-per-click was relatively unchanged from the three months ended June 30, 2021 to the three months ended June 30, 2022 and increased from the six months ended June 30, 2021 to the six months ended June 30, 2022 due to a number of interrelated factors including changes in device mix, geographic mix, growth in advertiser spending, ongoing product changes, and property mix.

Impressions and cost-per-impression

The following table presents year-over-year changes in impressions and cost-per-impression (expressed as a percentage):

	Three Months Ended June 30, 2022	Six Months Ended June 30, 2022
Impressions change	6%	6%
Cost-per-impression change	2%	9%

Impressions increased from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, primarily driven by growth across Google Ad Manager, AdSense, and AdMob. The increase in cost-per-impression from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was driven by a number of interrelated factors including ongoing product and policy changes, improvements we have made in ad formats and delivery, changes in device mix, geographic mix, product mix, and property mix.

Google other revenues

Google other revenues decreased \$70 million from the three months ended June 30, 2021 to the three months ended June 30, 2022 primarily driven by a decrease in Google Play revenues, partially offset by growth in YouTube non-advertising revenues. The decrease in Google Play revenues was primarily driven by the fee structure changes we announced in 2021 as well as a decrease in buyer spending. The growth in YouTube non-advertising was largely due to an increase in paid subscribers.

Google other revenues increased \$247 million from the six months ended June 30, 2021 to the six months ended June 30, 2022. The growth was primarily driven by YouTube non-advertising, largely due to an increase in paid subscribers. The overall growth was partially offset by a decrease in Google Play revenues, primarily driven by the fee structure changes we announced in 2021 as well as a decrease in buyer spending.

Google Cloud

Google Cloud revenues increased \$1.6 billion and \$3.4 billion from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, respectively. The growth was primarily driven by GCP followed by Google Workspace offerings. Google Cloud's infrastructure and platform services were the largest drivers of growth in GCP.

Revenues by Geography

The following table presents revenues by geography as a percentage of revenues, determined based on the addresses of our customers:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2021		2022		2021		2022	
United States	46	%	47	%	45	%	47	%
EMEA	31	%	29	%	31	%	30	%
APAC	18	%	17	%	19	%	17	%
Other Americas	5	%	6	%	5	%	6	%
Hedging gains (losses)	0	%	1	%	0	%	0	%

For further details on revenues by geography, see Note 2 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Use of Constant Currency Revenues and Constant Currency Revenue Percentage Change

The effect of currency exchange rates on our business is an important factor in understanding period to period comparisons. We use non-GAAP constant currency revenues and non-GAAP percentage change in constant currency revenues for financial and operational decision-making and as a means to evaluate period-to-period comparisons. We believe the presentation of results on a constant currency basis in addition to GAAP results helps improve the ability to understand our performance because it excludes the effects of foreign currency volatility that are not indicative of our core operating results.

Constant currency information compares results between periods as if exchange rates had remained constant period over period. We define constant currency revenues as total revenues excluding the effect of foreign exchange rate movements and hedging activities, and use it to determine the constant currency revenue percentage change on a year-on-year basis. Constant currency revenues are calculated by translating current period revenues using prior year comparable period exchange rates, as well as excluding any hedging effects realized in the current period.

Constant currency revenue percentage change is calculated by determining the change in current period revenues over prior year comparable period revenues where current period foreign currency revenues are translated using prior year comparable period exchange rates and hedging effects are excluded from revenues of both periods.

These results should be considered in addition to, not as a substitute for, results reported in accordance with GAAP. Results on a constant currency basis, as we present them, may not be comparable to similarly titled measures used by other companies and are not a measure of performance presented in accordance with GAAP.

The following table presents the foreign exchange effect on international revenues and total revenues (in millions, except percentages):

	Three Months Ended June 30,		% Change from Prior Year		Six Months Ended June 30,		% Change from Prior Year	
	2021	2022			2021	2022		
EMEA revenues	\$ 19,084	\$ 20,533	8	%	\$ 36,115	\$ 40,850	13	%
EMEA constant currency revenues		22,489	18	%		\$ 44,117	22	%
APAC revenues	11,231	11,710	4	%	\$ 21,686	\$ 23,551	9	%
APAC constant currency revenues		12,466	11	%		\$ 24,906	15	%
Other Americas revenues	3,364	4,340	29	%	\$ 6,269	\$ 8,182	31	%
Other Americas constant currency revenues		4,310	28	%		\$ 8,233	31	%
United States revenues	28,208	32,727	16	%	\$ 53,240	\$ 64,460	21	%
Hedging gains (losses)	(7)	375			\$ (116)	\$ 653		
Total revenues	\$ 61,880	\$ 69,685	13	%	\$ 117,194	\$ 137,696	17	%
Revenues, excluding hedging effect	\$ 61,887	\$ 69,310			\$ 117,310	\$ 137,043		
Exchange rate effect		2,682				4,673		
Total constant currency revenues		\$ 71,992	16	%		\$ 141,716	21	%

EMEA revenue growth from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was unfavorably affected by changes in foreign currency exchange rates, primarily due to the U.S. dollar strengthening relative to the Euro and British pound.

APAC revenue growth from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was unfavorably affected by changes in foreign currency exchange rates, primarily due to the U.S. dollar strengthening relative to the Japanese yen.

Other Americas revenue growth from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was not materially affected by changes in foreign currency exchange rates.

Costs and Expenses

Cost of Revenues

The following table presents cost of revenues, including TAC (in millions, except percentages):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
TAC	\$ 10,929	\$ 12,214	\$ 20,641	\$ 24,204
Other cost of revenues	15,298	17,890	29,689	35,499
Total cost of revenues	\$ 26,227	\$ 30,104	\$ 50,330	\$ 59,703
Total cost of revenues as a percentage of revenues	42.4 %	43.2 %	42.9 %	43.4 %

Cost of revenues increased \$3.9 billion from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase was due to increases in other cost of revenues and TAC of \$2.6 billion and \$1.3 billion, respectively. Cost of revenues increased \$9.4 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022. The increase was due to increases in other cost of revenues and TAC of \$5.8 billion and \$3.6 billion, respectively.

The increase in TAC from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was due to increases in TAC paid to distribution partners and to Google Network partners, primarily driven by growth in revenues subject to TAC. The TAC rate was 21.7% in both the three months ended June 30, 2021 and the three months ended June 30, 2022. The TAC rate increased from 21.7% to 21.8% from the six months ended June 30, 2021 to the six months ended June 30, 2022 due to a combination of factors, none of which were individually significant. The TAC rate on Google Search & other properties revenues and the TAC rate on Google Network revenues were both substantially consistent from three and six months ended June 30, 2021 to the three and six months ended June 30, 2022.

The increase in other cost of revenues from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022 was primarily due to increases in data center and other operations costs, including depreciation expense, as well as content acquisition costs primarily for YouTube.

Research and Development

The following table presents R&D expenses (in millions, except percentages):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Research and development expenses	\$ 7,675	\$ 9,841	\$ 15,160	\$ 18,960
Research and development expenses as a percentage of revenues	12.4 %	14.1 %	12.9 %	13.8 %

R&D expenses increased \$2.2 billion from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase was primarily driven by an increase in compensation expenses of \$1.4 billion, largely resulting from a 18% increase in headcount, and an increase in professional services fees of \$312 million.

R&D expenses increased \$3.8 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022. The increase was primarily driven by an increase in compensation expenses of \$2.3 billion, largely resulting from a 17% increase in headcount, and an increase in professional services fees of \$456 million.

Sales and Marketing

The following table presents sales and marketing expenses (in millions, except percentages):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Sales and marketing expenses	\$ 5,276	\$ 6,630	\$ 9,792	\$ 12,455
Sales and marketing expenses as a percentage of revenues	8.5 %	9.5 %	8.4 %	9.0 %

Sales and marketing expenses increased \$1.4 billion from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase was primarily driven by an increase in advertising and promotional activities of \$603 million and an increase in compensation expenses of \$536 million, largely resulting from a 20% increase in headcount.

Sales and marketing expenses increased \$2.7 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022 primarily driven by an increase in compensation expenses of \$1.1 billion and an increase in advertising and promotional activities of \$1.1 billion. The increase in compensation expenses was largely due to a 20% increase in headcount. The increase in advertising and promotional activities was driven by both increased spending in the current period and a reduction in spending in the prior year comparable period due to COVID-19.

General and Administrative

The following table presents general and administrative expenses (in millions, except percentages):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
General and administrative expenses	\$ 3,341	\$ 3,657	\$ 6,114	\$ 7,031
General and administrative expenses as a percentage of revenues	5.4 %	5.2 %	5.2 %	5.1 %

General and administrative expenses increased \$316 million from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase was primarily driven by an increase in professional services fees of \$311 million and an increase in compensation expenses of \$309 million, largely resulting from a 23% increase in headcount. The overall increase was partially offset by a decrease in charges related to legal matters of \$623 million.

General and administrative expenses increased \$917 million from the six months ended June 30, 2021 to the six months ended June 30, 2022. The increase was primarily driven by an increase in compensation expenses of \$600 million, largely resulting from a 21% increase in headcount, and an increase in professional services fees of \$597 million. The overall increase was partially offset by a decrease in charges related to legal matters of \$792 million.

Segment Profitability

The following table presents segment operating income (loss) (in millions).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Operating income (loss):				
Google Services	\$ 22,343	\$ 22,770	\$ 41,889	\$ 45,690
Google Cloud	(591)	(858)	(1,565)	(1,789)
Other Bets	(1,398)	(1,686)	(2,543)	(2,841)
Corporate costs, unallocated ⁽¹⁾	(993)	(773)	(1,983)	(1,513)
Total income from operations	\$ 19,361	\$ 19,453	\$ 35,798	\$ 39,547

⁽¹⁾ Unallocated corporate costs primarily include corporate initiatives, corporate shared costs, such as finance and legal, including certain fines and settlements, as well as costs associated with certain shared R&D activities. Additionally, hedging gains (losses) related to revenue are included in corporate costs.

Google Services

Google Services operating income increased \$427 million from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase was due to growth in revenues, partially offset by increases in compensation expenses and TAC.

Google Services operating income increased \$3.8 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022. The increase was due to growth in revenues, partially offset by increases in TAC and compensation expenses.

Google Cloud

Google Cloud operating loss increased \$267 million and \$224 million from the three and six months ended June 30, 2021 to the three and six months ended June 30, 2022, respectively. The increase in operating loss was primarily driven by an increase in expenses, primarily driven by compensation expenses, partially offset by growth in revenues.

Other Bets

Other Bets operating loss increased \$288 million from the three months ended June 30, 2021 to the three months ended June 30, 2022. The increase in operating loss was primarily driven by an increase in compensation expenses.

Other Bets operating loss increased \$298 million from the six months ended June 30, 2021 to the six months ended June 30, 2022. The increase in operating loss was primarily driven by increases in compensation expenses, partially offset by growth in revenues.

Other Income (Expense), Net

The following table presents other income (expense), net (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Other income (expense), net	\$ 2,624	\$ (439)	\$ 7,470	\$ (1,599)

Other income (expense), net, decreased \$3.1 billion from the three months ended June 30, 2021 to the three months ended June 30, 2022 primarily due to gains and losses on equity and debt securities and changes in accrued performance fees. In the three months ended June 30, 2022, \$1.2 billion of net unrealized losses were recognized on marketable equity securities and \$790 million of net losses on debt securities. These losses were partially offset by \$911 million of net unrealized gains on non-marketable equity securities and a \$318 million reversal of previously accrued performance fees related to certain investments. In the three months ended June 30, 2021, \$2.6 billion of net unrealized gains on marketable and non-marketable equity securities were recognized, partially offset by \$523 million of accrued performance fees related to certain investments.

Other income (expense), net, decreased \$9.1 billion from the six months ended June 30, 2021 to the six months ended June 30, 2022 primarily due to gains and losses on equity securities and changes in accrued performance fees. In the six months ended June 30, 2022, \$2.5 billion of net unrealized losses were recognized on marketable equity securities, partially offset by \$1.4 billion of net unrealized gains on non-marketable equity securities and a \$551 million reversal of previously accrued performance fees related to certain investments. In the six months ended June 30, 2021, \$7.1 billion of net unrealized gains on marketable and non-marketable equity securities were recognized, partially offset by \$1.2 billion of accrued performance fees related to certain investments.

See Note 3 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q for further information.

Provision for Income Taxes

The following table presents provision for income taxes (in millions, except effective tax rate):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2022	2021	2022
Income before provision for income taxes	\$ 21,985	\$ 19,014	\$ 43,268	\$ 37,948
Provision for income taxes	\$ 3,460	\$ 3,012	\$ 6,813	\$ 5,510
Effective tax rate	15.7 %	15.8 %	15.7 %	14.5 %

The effective tax rate increased 0.1% from the three months ended June 30, 2021 to the three months ended June 30, 2022. The effective tax rate was affected by offsetting factors including decreases in the stock-based compensation-related tax benefit, and in pre-tax earnings (including in countries that have lower statutory rates), offset primarily by the effects of capitalization and amortization of R&D expenses starting in 2022 as required by the 2017 Tax Cuts and Jobs Act generating an increase in the U.S. federal Foreign-Derived Intangible Income tax deduction.

The effective tax rate decreased 1.2% from the six months ended June 30, 2021 to the six months ended June 30, 2022. The decrease was primarily driven by the effects of capitalization and amortization of R&D expenses starting in 2022 as required by the 2017 Tax Cuts and Jobs Act generating an increase in the U.S. federal Foreign-Derived Intangible Income tax deduction, offset primarily by a decrease in pre-tax earnings, including in countries that have lower statutory rates.

Financial Condition

Cash, Cash Equivalents, and Marketable Securities

As of June 30, 2022, we had \$125.0 billion in cash, cash equivalents, and short-term marketable securities. Cash equivalents and marketable securities are comprised of time deposits, money market funds, highly liquid government bonds, corporate debt securities, mortgage-backed and asset-backed securities and marketable equity securities.

Sources, Uses of Cash and Related Trends

Our principal sources of liquidity are our cash, cash equivalents, and marketable securities, as well as the cash flow that we generate from operations. The primary use of capital continues to be to invest for the long-term growth of the business. We regularly evaluate our cash and capital structure, including the size, pace and form of capital return to stockholders.

The following table presents our cash flows (in millions):

	Six Months Ended June 30,	
	2021	2022
Net cash provided by operating activities	\$ 41,179	\$ 44,528
Net cash used in investing activities	\$ (14,457)	\$ (13,238)
Net cash used in financing activities	\$ (29,597)	\$ (34,031)

Cash Provided by Operating Activities

Our largest source of cash provided by operations are advertising revenues generated by Google Search & other properties, Google Network properties and YouTube ads. Additionally, we generate cash through sales of apps and in-app purchases, digital content products, and hardware; and licensing and service fees including fees received for Google Cloud offerings and subscription-based products.

Our primary uses of cash from our operating activities include payments to distribution and Google Network partners, for compensation and related costs, and for content acquisition costs. In addition, uses of cash from operating activities include hardware inventory costs, income taxes, and other general corporate expenditures.

Net cash provided by operating activities increased from the six months ended June 30, 2021 to the six months ended June 30, 2022 primarily due to the net effect of increases in cash received from revenues, increases in cash paid for cost of revenues and operating expenses, offset by an increase in tax payments driven by the

effects of capitalization and amortization of R&D expenses beginning in 2022 as required by the 2017 Tax Cuts and Jobs Act, and other working capital.

Cash Used in Investing Activities

Cash provided by investing activities consists primarily of maturities and sales of investments in marketable and non-marketable securities. Cash used in investing activities consists primarily of purchases of marketable and non-marketable securities, purchases of property and equipment, and payments for acquisitions.

Net cash used in investing activities decreased from the six months ended June 30, 2021 to the six months ended June 30, 2022 primarily due to a net decrease in cash used for purchases, sales and maturities of marketable securities, partially offset by an increase of purchases of property and equipment.

Cash Used in Financing Activities

Cash provided by financing activities consists primarily of proceeds from issuance of debt and proceeds from the sale of interest in consolidated entities. Cash used in financing activities consists primarily of repurchases of stock, net payments related to stock-based award activities, and repayments of debt.

Net cash used in financing activities increased from the six months ended June 30, 2021 to the six months ended June 30, 2022 primarily due to an increase in repurchases of stock.

Liquidity and Material Cash Requirements

We expect existing cash, cash equivalents, short-term marketable securities, cash flows from operations and financing activities to continue to be sufficient to fund our operating activities and cash commitments for investing and financing activities for at least the next 12 months and thereafter for the foreseeable future.

Capital Expenditures and Leases

We make investments in land and buildings for data centers and offices and information technology assets through purchases of property and equipment and lease arrangements to provide capacity for the growth of our services and products.

Capital Expenditures

Our capital investments in property and equipment consist primarily of the following major categories:

- technical infrastructure, which consists of investments in servers and network equipment for computing, storage and networking requirements for ongoing business activities, including machine learning (collectively referred to as information technology assets) and data center land and building construction; and
- office facilities, ground up development projects, and related building improvements.

Construction in progress consists primarily of technical infrastructure and office facilities which have not yet been placed in service for our intended use. The time frame from date of purchase to placement in service of these assets may extend from months to years. For example, our data center construction projects are generally multi-year projects with multiple phases, where we acquire qualified land and buildings, construct buildings, and secure and install information technology assets.

During the six months ended June 30, 2021 and 2022, capital expenditures were \$11.4 billion and \$16.6 billion, respectively. Depreciation of our property and equipment commences when the deployment of such assets are completed and are ready for our intended use. Land is not depreciated. For the six months ended June 30, 2021 and 2022, depreciation and impairment expenses on property and equipment were \$5.3 billion and \$7.3 billion, respectively.

Leases

For the six months ended June 30, 2021 and 2022, we recognized total operating lease assets of \$1.6 billion and \$2.2 billion, respectively. As of June 30, 2022, the amount of total future lease payments under operating leases, which had a weighted average remaining lease term of 9 years, was \$16.2 billion. As of June 30, 2022, we have entered into leases that have not yet commenced with future lease payments of \$4.9 billion, excluding purchase options, that are not yet recorded on our Consolidated Balance Sheets. These leases will commence between 2022 and 2026 with non-cancelable lease terms of 1 to 25 years.

For the six months ended June 30, 2021 and 2022, our operating lease expenses (including variable lease costs) were \$1.6 billion and \$1.8 billion, respectively. Finance lease costs were not material for the six months ended June 30, 2021 and 2022.

Financing

We have a short-term debt financing program of up to \$10.0 billion through the issuance of commercial paper. Net proceeds from this program are used for general corporate purposes. As of June 30, 2022, we had no commercial paper outstanding.

As of June 30, 2022, we had \$10.0 billion of revolving credit facilities, \$4.0 billion expiring in April 2023 and \$6.0 billion expiring in April 2026. The interest rates for all credit facilities are determined based on a formula using certain market rates, as well as our progress toward the achievement of certain sustainability goals. No amounts have been borrowed under the credit facilities.

As of June 30, 2022, we had senior unsecured notes outstanding with a total carrying value of \$12.9 billion. See Note 5 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q for further information on our debt.

Share Repurchase Program

In April 2021, the Board of Directors of Alphabet authorized the company to repurchase up to \$50.0 billion of its Class C stock. In July 2021, the Board of Directors of Alphabet approved an amendment to the April 2021 authorization, permitting the company to repurchase both Class A and Class C shares in a manner deemed in the best interest of the company and its stockholders, taking into account the economic cost and prevailing market conditions, including the relative trading prices and volumes of the Class A and Class C shares. The repurchases from the April 2021 authorization were completed during the second quarter of 2022.

In April 2022, the Board of Directors of Alphabet authorized the company to repurchase up to an additional \$70.0 billion of its Class A and Class C shares. As of June 30, 2022, \$58.9 billion remains available for Class A and Class C share repurchases from the April 2022 authorization. In accordance with the authorizations of the Board of Directors of Alphabet, during the three and six months ended June 30, 2022, we repurchased and subsequently retired 132.8 million and 231.1 million aggregate shares for \$15.2 billion and \$28.5 billion, respectively. Of the aggregate amount repurchased and subsequently retired during the three months ended June 30, 2022, 16.3 million shares were Class A stock for \$1.9 billion and 116.5 million shares were Class C stock for \$13.3 billion. Of the aggregate amount repurchased and subsequently retired during the six months ended June 30, 2022, 21.2 million shares were Class A stock for \$2.5 billion and 209.9 million shares were Class C stock for \$26.0 billion.

European Commission Fines

In 2017, 2018 and 2019, the EC announced decisions that certain actions taken by Google infringed European competition law and imposed fines of €2.4 billion (\$2.7 billion as of June 27, 2017), €4.3 billion (\$5.1 billion as of June 30, 2018), and €1.5 billion (\$1.7 billion as of March 20, 2019), respectively. While each EC decision is under appeal, we included the fines in accrued expenses and other current liabilities on our Consolidated Balance Sheets as we provided bank guarantees (in lieu of a cash payment) for the fines. See Note 9 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Taxes

As of June 30, 2022, we had short-term and long-term income taxes payable of \$1.6 billion and \$4.2 billion related to a one-time transition tax payable incurred as a result of the U.S. Tax Cuts and Jobs Act ("Tax Act"). As permitted by the Tax Act, we will pay the transition tax in annual interest-free installments through 2025. We also have taxes payable of \$4.0 billion primarily related to uncertain tax positions as of June 30, 2022.

Pending Acquisition

In March 2022, we entered into an agreement to acquire Mandiant, a leader in dynamic cyber defense and response, for \$23.00 per share, in an all-cash transaction valued at approximately \$5.4 billion, net of cash and debt. See Note 7 of the Notes to Consolidated Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Critical Accounting Estimates

See Part II, Item 7, "Critical Accounting Estimates" in our Annual Report on Form 10-K for the year ended December 31, 2021.

Available Information

Our website is located at www.abc.xyz, and our investor relations website is located at www.abc.xyz/investor. Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and our Proxy Statements, and any amendments to these reports, are available through our investor relations website, free of charge, after we file them with the SEC. We also provide a link to the section of the SEC's website at www.sec.gov that has all of the reports that we file or furnish with the SEC.

We webcast via our investor relations website our earnings calls and certain events we participate in or host with members of the investment community. Our investor relations website also provides notifications of news or announcements regarding our financial performance and other items of interest to our investors, including SEC filings, investor events, press and earnings releases, and blogs. We also share Google news and product updates on Google's Keyword blog at <https://www.blog.google/>, which may be of interest or material to our investors. Further, corporate governance information, including our certificate of incorporation, bylaws, governance guidelines, board committee charters, and code of conduct, is also available on our investor relations website under the heading "Other." The content of our websites are not incorporated by reference into this Quarterly Report on Form 10-Q or in any other report or document we file with the SEC, and any references to our websites are intended to be inactive textual references only.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For quantitative and qualitative disclosures about market risk, refer to Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2021.

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act, as of the end of the period covered by this Quarterly Report on Form 10-Q.

Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2022, our disclosure controls and procedures are designed at a reasonable assurance level and are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

We rely extensively on information systems to manage our business and summarize and report operating results. In 2019, we began a multi-year implementation of a new global enterprise resource planning (ERP) system, which will replace much of our existing core financial systems. The ERP system is designed to accurately maintain our financial records, enhance the flow of financial information, improve data management and provide timely information to our management team. To date, significant progress has been made with the implementation of various modules. Additional implementation activities are expected to continue in phases over the next few years. There have been no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. However, as the phased implementation of the new ERP system continues, we will change our processes and procedures, which in turn, could result in changes to our internal control over financial reporting. As such changes occur, we will evaluate quarterly whether such changes materially affect our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For a description of our material pending legal proceedings, see Note 9 "Contingencies - Legal Matters" of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.

ITEM 1A. RISK FACTORS

Our operations and financial results are subject to various risks and uncertainties, including those described in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, which could adversely affect our business, financial condition, results of operations, cash flows, and the trading price of our stock.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

The following table presents information with respect to Alphabet's repurchases of Class A and Class C stock during the quarter ended June 30, 2022. All references to shares and per share amounts have been retroactively adjusted to reflect the effects of the Stock Split. See Note 1 in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information.

Period	Total Number of Class A Shares Purchased (in thousands) ⁽¹⁾	Total Number of Class C Shares Purchased (in thousands) ⁽¹⁾	Average Price Paid per Class A Share ⁽²⁾	Average Price Paid per Class C Share ⁽²⁾	Total Number of Shares Purchased as Part of Publicly Announced Programs (in thousands) ⁽¹⁾	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (in millions)
April 1 - 30	2,125	11,469	\$ 124.95	\$ 126.62	13,594	\$ 72,353
May 1 - 31	7,712	54,160	\$ 113.20	\$ 113.01	61,872	\$ 65,360
June 1 - 30	6,470	50,882	\$ 111.33	\$ 113.31	57,352	\$ 58,874
Total	16,307	116,511			132,818	

⁽¹⁾ Repurchases are executed from time to time, subject to general business and market conditions and other investment opportunities, through open market purchases or privately negotiated transactions, including through Rule 10b5-1 plans. The repurchase program does not have an expiration date. See Note 10 in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional information related to share repurchases.

⁽²⁾ Average price paid per share includes costs associated with the repurchases.

PURSUANT TO
EXCHANGE ACT RULES 13a-14(a) AND 15d-14(a),
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Sundar Pichai, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Alphabet Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO
EXCHANGE ACT RULES 13a-14(a) AND 15d-14(a),
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Ruth Porat, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Alphabet Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
